

My Savings Plan

It's time to start saving money. This is where you can work out how much you plan to save and how you're going to save it.

1. How much money do you get each month? (Allowance, job, etc.)

2. Is there a specific amount of money you want to save? If so, what is it?

3. How much of the money you get each month are you going to save?

4. Where are you going to put the money you want to save?

5. If you are not saving for something specific, when is it okay to spend the money you have saved?
